

SBLC Issuance/ Monetization/Trade Agreement

_____, hereinafter referred to as the "**Sender/Sender Representative/Turnkey Manager**," agrees to issue a Brussels Bank to Bank SBLC including Monetization and Trade on ___/___/2026 to the entity identified as _____, referred to as the "**Client/End Beneficiary**."

This Brussels SBLC will be valid for a period of one year and one day, with a total value of Two Hundred and Fifty Million US Dollars (\$250,000,000). The issuance of this SBLC is contingent upon the **Sender/Sender Representative/Turnkey Manager** receiving an issuance/entry fee of Four Hundred Thousand US Dollars (\$400,000.00) for each SBLC [including Issuance + Monetization + Trade].

The **Client/End Beneficiary** fully acknowledges and confirms that he is entirely aware that the total fee for a single spot/entry into the Turnkey program amounts to 400K USD. He recognizes and affirms that he will take part as one **Client/End Beneficiary** among a total of 8 **Clients/End Beneficiaries** in the 8 Client batch, with each contributing 50K USD to enroll in the program under a single official spot/entry.

Client/End Beneficiary consent to being part of a group of 8 clients, with guaranteed payouts, where each **Client/End Beneficiary** contributes 50K for a cumulative total of 400K for one spot in the program. This stipulates that a **Client/End Beneficiary** can only officially enter once all 8 clients have assembled and completed their payments. Should the group of 8 **Clients/End Beneficiaries** not be fully formed within 30 days from the payment of the first **Client/End Beneficiary** in the batch, a full refund of 50K will be issued to each **Client/End Beneficiary** in the intended batch who has already paid the \$50K USD participation fee.

It is also acknowledged that a single trade Entry/Spot will yield a net advance of 28 million USD for the 8 Client Batch consisting of 8 **Clients/End Beneficiaries** within a timeframe of 20-30 days following the completion of signatures and payments by all 8 **Clients/End Beneficiaries**, and once the official Spot/Entry has been incorporated into the Turnkey Program.

Each **Client/End Beneficiary** in the batch of 8 will receive an advance of 3.5 million USD within 20-30 days after the pool is finalized and the batched spot has entered the program. Furthermore, it is agreed that after 30 days from the advance payment, each **Client/End Beneficiary** will receive 60% of 100 million USD multiplied by 75% divided by 8 **Clients/End Beneficiaries** for a duration of 10 months. Consequently, each month, each **Client/End Beneficiary** in the 8 Client Batch will receive a net amount of \$5,625,000 USD starting 30 days after the **Client/End Beneficiary** has received his advance. By the conclusion of the 10th monthly trade payment, each **Client/End Beneficiary** will have netted \$3.5 million USD in advance plus \$56,250,000 in 10 monthly trade payments, culminating in a minimum earning of \$59,750,000 or approximately 60 million USD.

SBLC Issuance/ Monetization/Trade Agreement

The Brussels SBLC will be dispatched from BNP Paribas Bank, accompanied by an MT760 through Brussels SWIFT. BNP Paribas has been appointed as the issuing bank for the transactions related to the issuance of SBLCs.

The estimated duration from the payment date of the entry fee to the advance payment day is projected to be between 20 and 30 days.

Furthermore, the **Sender/Sender Representative/Turnkey Manager** will oversee the monetization/trading of the Brussels SBLC once it is received by the **Sender/Sender Representative/Turnkey Manager's** Monetizer Bank. The expected Loan-to-Value (LTV) Ratio for this Brussels SBLC is anticipated to be at a minimum of 56% NET.

Upon the initiation of monetization, all **Clients/End Beneficiaries** associated with the 8 Client Batch, as well as the **Sender/Sender Representative/Turnkey Manager**, shall receive an advance payment totaling Forty Million US Dollars (\$40,000,000). Out of this total, 30% will be designated for the **Sender/Sender Representative/Turnkey Manager**, amounting to Twelve Million US Dollars (\$12,000,000), whereas the remaining Twenty-Eight Million US Dollars (\$28,000,000), representing 70%, will be distributed equally among all **Clients/End Beneficiaries** within the 8 Client Batch.

The remaining funds, estimated to be One Hundred Million USD (\$100,000,000), will be designated for trading. This trading is anticipated to yield monthly profits ranging from approximately 60% to 80% of the traded amount each month. The first trade payment is due 30 banking days following the advance payment date.

Under this agreement, 25% of the profits will be designated for **the Sender/Sender Representative/Turnkey Manager**, while the remaining 75% will be allocated to the **Client/End Beneficiary**. For example, if the monthly gross trading profits amount to 60 million USD, this would result in 15 million USD for the **Sender/Sender Representative/Turnkey Manager** and 45 million USD for the **Clients/End Beneficiaries** within the 8 Client Batch.

This Ten (10) Month Trade Program provides the benefit of bi-weekly payment options and is renewable upon completion of the term.

SBLC Issuance/ Monetization/Trade Agreement

The **Sender/Sender Representative/Turnkey Manager** is obligated to provide the **Clients/End Beneficiaries** within the 8 Client Batch with proof of any advance or trade payment resulting from these transactions under this SBLC Turnkey Program.
